

## Priority Charter Schools

275 FM 2483  
Belton, TX 76513

Families of Priority Charter Schools,

You are receiving this letter because you have a student who is **currently** taking a High School credit course that requires a STAAR End-of-Course (EOC) test for graduation. Due to COVID-19 and the implementation of online school, all STAAR EOC tests have been cancelled this year, per the Texas Education Agency (TEA). Due the tests being cancelled, the Texas Education Agency has determined that your student will not be required to take and pass the STAAR EOC for the course they are **currently** enrolled in to graduate. However, if your student has already taken a STAAR EOC and failed, they will be required to retest and pass in order to graduate.

Below is a list of the courses with an End-of-Course tests assigned that students are required a to pass in order to graduate High School:

- Algebra 1
- Biology
- English 1
- English 2
- United States History.

Additional student assessment and graduation information can be found on the Texas Education Agency's COVID-19 webpage on their Frequently Asked Questions (FAQ) Assessment flyer or by contacting your student's principal. The TEA Assessment Guidance flyer can be accessed using the following web address at [https://tea.texas.gov/sites/default/files/200331\\_Assessment%20Guidance.pdf](https://tea.texas.gov/sites/default/files/200331_Assessment%20Guidance.pdf) along with additional resources concerning your child's education during the COVID-19 pandemic.

Thank you for choosing Priority Charter Schools as your choice for your child's education. Our priority is your child's education and safety!

Sincerely,

*Libby Sheard*
